FIRE! FIRE! FIRE!

DELAY MAKES THE DANGER.—Till now Fires have only been met by means *too costly, too late, and too cumbrous.* The time lost in sending for an engine and getting it into working order has too often proved a fatal delay. The EXTINGUISHER, a self acting portable Fire Engine, is inexpensive, and so simple in its construction that the mere turning of a cock puts it into full action. *Warranted harmless to life, health and property.* Always ready for instant use. So portable that a man carries it without hindrance to active exertions.—For *Manufactories, Warehouses, Railway Depots, Public Buildings, Hotels* and *Private Residences,* it is indispensable, and for *Steam and Sailing Vessels* it is as vitally necessary as a *life-boat* or a *life preserver.* It occupies but little space, contains a chemical liquid ... and is equally efficacious at any lapse of time. So simple that a boy can charge or manage it.

THE BEAUTY OF OLD AGE.

I often think each tottering form
That limps along in life's decline
Once bore a heart as young, as warm,
As full of idle fancies as mine!
And each has had its dream of joy,
Its own unequaled, pure romance;
Commencing when the blushing boy
First thrilled at lovely woman's glance.

And each could tell his tale of youth,
Would think its scenes of love evince
More passion, more unearthly truth
Than any tale before or since.
Yes! they could tell of tender lays,
At midnight penned in classic shades,
Of days more bright than modern days—
And maids more fair than modern maids;

Of whispers in a willing ear;
Of kisses on a blushing cheek,
Each kiss, each whisper far too dear
Our modern lips to give or speak,
Of passions too untimely crossed—
Of passions slighted or betrayed—
Of kindred spirits early lost,
And buds that blossomed but to fade;

Of beaming eyes and tresses gay,
Elastic form and noble brow,
And forms that have all passed away,
And left them what we see them now,
And is it thus—is human love
So very light and frail a thing?
And must youth's brightest visions move
Forever on Time's restless wing?

Must all the eyes that still are bright,
And all the lips that talk of bliss,
And all the forms so fair to-night,
Hereafter only come to this?
Then what are all earth's treasures worth,
If we at length must lose them thus—
If all we value most on earth,
Ere long must fade away from us?

THE Methodists are building a large Monumental church at Washington, to cost $200,000. It will be one of the largest and most imposing church edifices on the continent. Pews will be set apart for the President and his Cabinet, the Judges of our courts, Generals of our army, and other distinguished persons. Seats, also, will be provided for the different States, so that strangers from every section of our extended republic may feel that they have a place to worship when visiting the nation's capital. Being national in character, persons of every denomination have taken an interest in its completion. Chief Justice Chase and General Grant are members of the Board of Trustees, and the first men of the nation are among the contributors to this great monumental edifice, which is destined to stand for ages to come as a temple of truth and citadel of freedom.

THE SOUTH CAROLINA MURDERS.

The report of the Congressional Investigating Committee on the murder of three Maine soldiers in South Carolina, confirms the prevalent opinion that the life of Northern men is not safe in that State except in a line of conduct in accordance with Southern opinion and feeling. The Committee state, as the result of their investigation, the conviction that the courts cannot be relied on for the conviction of crime where soldiers, Union men or freedmen are concerned; that up to this time there has been no change for the better, but rather for the worse; that unless substantial justice be done to the laboring classes, hereafter, and to Union men and Northern men who desire to go there to engage in business, no improvement in the state of affairs can be expected. These circumstances call for the intervention of the general government; and the most practicable mode to secure justice is to make the military force auxiliary and supervisory to the civil.—The whole superstructure of government must rest on that. They believe that, in this way, with justice administered, crimes punished and disturbances prevented, the existing agitations will pass away and the different classes will live together in peace and prosperity.

The investigation elicited the following facts, which were the occasion of the appointment of the Committee: A detachment, consisting of three men from a Maine regiment, was placed at Brown's Ferry as a guard over cotton which had been seized by officers of the Treasury Department. A gang of rebels came up in the night and demanded their surrender. Refusing to yield to this demand, all three were instantly and without warning shot through the head.—The murderers were arrested, tried by a military commission, condemned to be hung, and the sentence was approved by Gen. Sickles, in command, with the exception of two, whose sentence, on account of their youth, was changed to imprisonment for life. Applications were at once made to the President for their pardon, or for a new trial before the civil courts. He yielded to the demand and commuted the punishment to imprisonment for life at the Tortugas. They were, however, imprisoned at Fort Delaware, and the Judge of the United States District Court for the State of Delaware soon issued a writ of *habeas corpus*, under which they were released on the plea that their trial before a military tribunal was unconstitutional.

With such facts before the public, the conclusions of the Congressional Committee are irresistible. They disclose a sentiment prevailing in the section in question which renders the administration of justice impossible, and proves the truth of Gen. Sheridan's remark, that the trial of a person for a crime against a Union man or a freedman in the Southern courts is a farce." They prove, also, the wisdom of connecting with the reconstruction bill just passed by Congress, the provision for military supervision and aid in the administration of the governments of the States while in the process of reconstruction. The welfare of the South itself demands the security of the laboring and business classes, as under the existing state of affairs it can never become quiet and prosperous.

The Naval Academy.

The question of the removal of the Naval Academy from Annapolis has been assigned for consideration in the House of Representatives to-day. Should Mr. Schenck's resolution pass, a fair consideration of the subject, by a commission to be appointed for the purpose, may be anticipated; and a survey of the competing localities by an impartial board can scarcely fail to decide on Newport as the proper place for its establishment. The first requisite is good water for anchorage and cruising; another is a suitable place on shore for quarters and exercising; and last, but not least, is a suitable political and moral atmosphere to affect and influence the young men who are preparing to exert, in the future, so weighty an influence upon our naval marine both at home and abroad, and to represent the government and the people in foreign ports on great and important occasions. If these requisites be considered in combination, Newport easily distances all competitors for the location of the school. If, however, the matter is controlled by a "ring" and the League Island purchase and the Naval Academy are the counterbalancing considerations, as has been asserted, the Academy will probably go elsewhere. The earnest co-operation of Mr. Schenck with our able representative, Mr. Jenckes, will do all that can be done in favor of its location here. The subject is, doubtless, safe in the hands of these earnest and influential members, and, so far as the efforts of the friends of its removal to Newport are concerned, our fellow-citizens need entertain no anxiety on the matter. We could not wish more able or more willing advocates. The disposition of the subject by the House will soon be known, and will, in all probability decide the question for the present, at least.

In building chimneys bricklayers should put a quantity of salt into the mortar with which the interstices of brick are to be laid. The effect will be that there will never be any accumulation of soot in the chimney, for the reason that the salt in the portion of mortar which is exposed absorbs moisture every damp day. The soot thus becoming damp falls down into the fire-place

FAMINE AT HOME.—Under this caption the Executive Committee of the New York organization for assisting the destitute at the South, have sent out a circular describing the want which they propose to relieve, and urgently calling for aid. The destitution in various parts of the South is extreme, owing to the small amount of seed planted since the rebellion and the short crops of the last season. A prevalent drought last summer, combined with the imperfect tillage, cut off the harvests to such an extent that in many neighborneighborhoods the people are on the verge of starvation, not more food having been produced than enough to supply them beyond a half a year; and there are no means of subsistence at hand until the new crops begin to be available.

The committee call for contributions. They will accept articles of food, such as bacon or other preserved meats; articles of clothing will also be accepted, though they wish for money, especpecially, which they propose to expend in the purchase of corn. This they deem the least liable to misuse or waste, and it can be most easily procured. Much can be done in every community to aid such a work, and there is a great variety of methods in which different people can cooperate. The committee place more dependence upon small contributions than upon large sums. For so small a sum as ten cents they can send corn enough to the famished to provide a day's sustenance for a family. The acting General Agent for the Commission is John M. Bowne, office Nos. 1 and 2, Adams' Express Buildings, 6 Broadway. Depot for supplies from the East, No. 33 Water Street.

FLOUR FROM CALIFORNIA.—Last Saturday a firm in Portland, Me., received a lot of California flour, forty days from San Francisco. It came in sacks of fifty and one hundred pounds each, in capital order, the flour being put first into cotton sacks, and then these sacks being placed in gunny bags. Portland papers state that flour can be obtained quicker from San Francisco than it can from Chicago, railroad facilities from the West being so very poor.

A Charleston letter says Governor Orr's address to the freedmen of South Carolina has aroused a bitter feeling against him. He plainly announced that he was in favor of giving all of the freedmen able to read the right of voting. Although it has displeased a large majority, still there are many leading men who regard the measure as inevitable, and are ready to stand by the Governor. This speech of the Governor will, no doubt, have the effect of organizing what is now proposed, "a national party" in South Carolina.

GENERAL ASSEMBLY.

JANUARY SESSION—AT PROVIDENCE.

MONDAY Feb. 25.

Senate.

The Senate met at 11 o'clock, His Excellency the Governor in the chair.

Mr. King, from the committee on corporations reported from the House an act amending the charter of the Crompton Company which was passed in concurrence.

Sundry matters were received from the House. The account of E. C. Mauran, from the House and a resolution of reimbursement, were referred to the committee on finance.

Resolutions from the House amending the Charter of the Pedwood Library was referred to the committee on education.

An act from the House to establish Courts of Justices in the towns and to increase the jurisdiction of Courts of Magistrates, were referred to the committee on the judiciary.

An act from the House in relation to the Chief of Police of the City of Providence and the City Marshal of Newport, was referred to the committee on the judiciary.

His Honor Lieutenant Governor in the chair.

An act from the House relative to the attendance upon public schools, was referred to the committee on education.

The annual report of the New York, Boston and Providence Railroad, from the House, was read and ordered to be placed on file.

An act, from the House, relative to trust estates, was referred to the committee on the judiciary.

The Senate concurred to the resolution, from the House, to visit the Reform School Feb. 26.

Mr. Currey reported, from the House, a resolution changing the names of J. Warren Henly, which was passed in concurrence.

Also the petition of John Tone for leave to sell real estate, with a resolution in accordance with the prayer of the petition which was passed.

Also an act from the House to protect the Providence river and harbor, recommending a change in the title, also a substitute which was read and passed as amended. The amended bill makes no material change in the provisions of the original bill. It includes in its provisions the harbor of East Providence.

Also, an act in amendment of the act dividing the town of Woonsocket, making provision for the registration of the voters in Woonsocket for the next annual State election; the rule was suspended the act was read a second time by its title and passed.

Also, an act, from the House, relative to the powers of the City Councils of Providence and Newport, recommending the act be amended by striking out Providence, and making the act operative only in Newport; concurred in as recommended by the committee.

Also an act from the House relative to theatrical exhibitions, concerts, &c., recommending that the Senate non concur.

Mr. Grosvenor moved to recommit the act and the Senate so voted.

Mr. Currey from the committee on the judiciary, reported an act relative to the court of magistrates in the villages, defining the jurisdiction of the same, which passed.

Also a resolution from the House to change the name of Marietta Hazard to Marietta Jenoks, was passed in concurrence.

Mr. Grosvenor, from the committee on finance, reported from the House a resolution to pay William Holmes for services in arresting crim inals which was passed in concurrence.

Mr. Currey, from the committee on the judiciary, reported from the House the act relative to real and poultry, recommending that the Senate concur by striking out the section relative to poultry, which forbids its sale unless the same be thoroughly dressed. The further consideration of the act was postponed till to-morrow.

Mr. King, from the committee on corporations, reported to the House sundry acts of incorporation viz: India Wharf Association, the Excelsior Turning Co, Trio Manufacturing Co., which were continued with an order of notice.

A little chap, who had, among other Christmas presents, a 'mechanical box,' in which two 'colored pussons' were intended to dance, on being wound up, found it would not work, and appealed to an older brother to 'fix it.' Jack look at it, and immediately exclaimed; "Why, they don't be fixed so as to work, Bob! They are *free*, you know!"

"It's all very pretty talk," said a recently married old bachelor, who had just finished reading an essay on the "Culture of Woman," "just as a heavy milliner's bill was presented to him,—it's all very pretty, this cultivation of woman; but such a charge as this for bonnets is rather a heavy top-dressing—in my judgment.

DR. SCHENCK'S

NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 33 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with consumption, or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars. Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part also; whether it is Tuberculous, Pulmonary, Bronchial, or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver complaint.

His medicines have full directions, so any one can take them without seeing him; but if they live near by, and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents per box.

Local Intelligence.

The funeral of Prof. Bache, in Washington, Sunday, was attended by most of the prominent men in that city. The pall bearers were Gen. Humphrey, of the Army, Admiral Davis of the Navy, Professor Henry of the Smithsonian Institute, Professor Pierce of Harvard University and the American Institute, Senator Trumbull, Representative Patterson, S. V. Merrick, of the Franklin Institute, and G. W. Blunt of the New York Chamber of Commerce. The remains were interred at the Congressional Cemetery.

TEMPERANCE MEETING.—The sixth meeting of the course of union religious and temperance prayer and conference meetings will be held this evening in the United Congregationalist Church, commencing at half-past 7 o'clock.

We learn that the music at the Ladies' Fair on Wednesday evening will be by the Fort Band and also by the Newport Social Glee Club, whose services have been procured for the occasion. This combination promises a rich and rare entertainment.

In case it should storm the Fair will be postponed to the first pleasant day.

New Publications.

THE LADY'S FRIEND, for March. The Truant's Return, a beautiful Steel Engraving, leads off this number. Then we have the usual elegant and refined Steel Fashion Plate, and a number of Patterns for Spring Dresses, Promenade Toilettes, Caps, &c., an Engraving of a noted French Aquarium in Paris. The Music is Tillio's Passed Away. The Literary Matter is made up of the continuations of the novelets of Orville College, by Mrs. Henry Wood, and How A Woman Had Her Way, by Elizabeth Prescott, Travelling with Half a Million, Doctor Dalhousie, A Bull Fight at Madrid, illustrated, Aunt Julia's Visit, and Editorials, Receipts, Fashions, &c. The publishers announce in addition, novelets by Amanda Douglass and Frank Lee Benedict. 319 Walnut St., Philadelphia.

HOURS AT HOME, for March, contains the second number of Dr. Bushnell's series on Moral Uses of Dark Things, two additional chapters of Marcella of Rome, No. 7 of Mitchell's rural series, Chapter 4 of Stormcliffe, Short Sermons to Sunday School Teachers, No. 11 and a variety of historical and descriptive articles of places and things of interest. C. Scribner & Co. 654 Broadway, New York.

FRANK LESLIE'S BOYS' AND GIRLS' WEEKLY for March 9th, is largely occupied by articles and illustrations connected with the history of Washington and a description of Sights in Egypt with illustrations.

Our Western Correspondence.

Belleville, Ill., Feb. 21, 1867.

MR. EDITOR.:—Few of the citizens of New England, or even of any of the Atlantic States, have any just conception of the extent of this western country. Most of them look upon Indiana or Illinois as being "away out west," where the people, outside of the large cities, are one-half civilized, and where the luxuries of the table are corn bread and fat pork, and the chief drink is corn whiskey, that "will kill every time at sixty rods."

In short, I may say most of your readers have, I presume, as inadequate an idea of the people as they have of the country itself. This I know to have been the case three years ago, when the writer left New England to make his home and fortune, if it might be, in the west. I cannot readily conceive that any material change has been wrought in that time.

In a few years from this date, when all the western country is settled up, and this nation boasts of its hundred millions of population, Illinois will be found to be somewhere near the centre of the Eastern States, a line running north and south through the centre of the country, intersecting a point a hundred miles west of Ft. Riley, in Kansas.

New England, New York, and the adjoining States, claim to be the ruling centre and heart of the nation, and so they are, but the time is coming when they will not be. For years to come New York will doubtless be the great commercial emporium, and will always be the commercial centre of the east, as San Francisco will be of the west, and St. Louis of the interior. But as absurd as the idea may be to some, the day is probably coming when St. Louis will rival even New York itself. New England may be proud of what she has done as the nursery of statesmen and pioneers; she may always be in advance in what pertains to literature and the fine arts; that is a question for the future, with probabilities in her favor; but in breadth of thought and expansiveness of mind, in strength of intellect and sturdy endurance, she must yield to the west. Irving says in some of his writings that the minds of a people partake of the nature of their surroundings. If this is correct we have the reason for the facts that lead to the conclusions just stated.

Of New England birth and education, and partaking of some of the prejudice incident thereto, I hold her memory most sacred; but the western mind looks upon her as a small patch in an obscure corner of the country, and is often unwilling to give her credit for what she is. This is not true of the more intelligent class, and is an opinion rapidly giving way. Instead of feeling any envy of Boston, New York, or Philadelphia, she begins to feel an independence of them, and that she can afford to be generous as well as just. Although far behind the east in schools and colleges of the higher order, the common school system prevails nearly as generally as in New England, and there is where the masses of our people are educated. The colleges of the west are inferior, but are more numerous. The east has more acquired wealth; the west tenfold more natural wealth. The accumulated capital of the east can readily be doubled in the west. It is there worth six per cent when loaned out, while here it commands ten, and often fifteen per cent. The idle capital of the east is needed to develop the exhaustless riches of the west, whether agricultural or mineral.

The great subject of interest now moving the west is the improvement of our rivers. This is an old question, and one which, in a general sense, has always, until within a few years, been opposed by the democratic party. I think it was Calhoun who declared that the principle of his party, that the Government could not stoop to improve all its rivers, was a good one, but it could not apply to the Mississippi, which is more like a great inland sea. The wisdom and propriety of improving at least the Ohio, the Missouri, and the Mississippi, is now generally conceded by men of all parties. It would be singular, indeed, if the National Government had the power to appropriate $100,000,000 to aid in building a thoroughfare from the east to the west, and had no power to appropriate, perhaps, one tenth that amount to improve the great national thoroughfares established free of cost, between the North and the South, over which our products, agricultural and mineral, can be transported to our Eastern, or even the European, sea-board, for less than the cost by rail from Chicago to New York. HESPERUS.

A private letter from Fort Laramie, Dakota Territory, says the force of United States troops which left Fort Morgan the 11th ult., arrived at Fort Laramie on the 25th, making the march of two hundred and ninety miles, through very deep snow, in fourteen days, stopping over at Fort Sedgwick two days. The majority of the men were frost-bitten, some quite severely.—The greatest precaution had to be taken against surprise, as the Indians were murdering and plundering all along the road, both in front and rear of the troops.

The Mobile Advertiser, of the 9th, says that any plan of resistance to Congress which depends upon the action of the Southern legislators and people is of no account. "The South has no power in this revolution. It has fought its fight and is 'played' out." The Advertiser goes on to speak of the South as "the victim of vengeance and the plucked goose of a party struggling for party power," which can "only say of Federal politics in general, "Let 'em rip.'"

WHAT GENERAL GRANT SAYS.—A correspondent of the Troy Times visited General Grant on Saturday, and obtained some of the General's views in regard to affairs in the South. According to this correspondent's report, General Grant thinks that there is little security for the life or property of Union men in the greater part of the South. There is little danger in the ordinary lines of travel, but if one "should stop and get into angry discussion, there would be danger in some places, no doubt. In that case shooting would probably be passed off as justifiable homicide, if the murderer was arrested at all."

A MONUMENT, as big as the grand Pyramid might be built of the teeth that have been ruined by neglect. Shall this still go on in the face of the great fact that SOZODONT is a certain preventive of dental decay?

Died.

In this city, 14th inst., Martha Plunkett Vaughn daughter of Richard and Agnes Vaughn, formerly of Mobile, Ala., aged 41 years. Richmond, Raleigh and Mobile papers, please copy.

Miss Vaughan, [familiarly known as Peggy,] had been until the last six years, the servant of a most estimable and intellectual lady of Mobile, who liberated her slaves just before the Rebellion, and removed to Richmond, and died of a broken heart. Peggy was a faithful servant and christian woman. For the last six years she has lived here and made many friends by her industry and goodness; she had overtasked her strength in the last year; her constitution sunk and death was the only relief. She rests from trouble. Peace be with her!

MADAME ZADOC PORTER'S

Curative Cough Balsam,

PRICE, 25 AND 50 CENTS PER BOTTLE.

The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c., the World has ever produced. Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

The CURATIVE BALSAM is Warranted, if used according to Directions, to CURE in all cases, Coughs, Colds, Croup, Whooping Cough Asthma, and all affections of the Throat and Lungs.

Madame Zadoc Porter's Balsam is a PERFECTLY VEGETABLE EXPECTORANT, prepared with great care and scientific skill, from a combination of the best remedies of the vegetable kingdom affords.

Its remedial qualities are directed on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.

It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in greatly throwing off the waste substance from the surface of the body.

It loosens the phlegm, induces free spitting, and will be found very agreeable to the taste. It is not a violent remedy, but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.

If you have a cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold brings it in the reach of every one that they may always keep it convenient for use.

The timely use of a 25 cent bottle will often prove to be worth one hundred times its cost.

Latest News

FROM WASHINGTON.

WASHINGTON Feb, 25 1867.

The bill providing for the removal of the Naval Academy will come up in the House tomorrow, and the Maryland delegation is evidently afraid that it will be removed from Annapolis to New London or Newport.

The bill giving 20 per cent extra compensation to the Clerks in the Departments hangs fire in the House, although the ladies of the Treasury Department are unceasing in their exertions to secure its passage.

The Senate and the House are now at a dead lock on a financial question. The Senate has passed a bill authorizing the issue of loan certificates for the redemption of compound interest notes, and the House has passed a bill authorizing the issue of legal tenders for the same period. The Secretary of the Treasury favors the Senate bill. The House refused today to instruct the Committee on Ways and Means to inquire into the expediency of reporting a bill providing by law for the issue of bonds of the United States in amount not exceeding $500,000, with five per cent, interest per annum, payable semi-annually, and redeemable 20 years after date of issue at such points in Europe and America as the Secretary of the Treasury may designate, said bonds to be disposed of for 6 per cent. U. S. bonds held in Europe.

The House is not disposed to have the tariff bill decided by a committee of conference, and the prospects of action on this question are now very slender.

The Senate in executive session, Thursday, rejected the nomination of Edgar Cowan as Minister to Austria, and Hugh Ewing as Minister to Hayti.

The municipal election in Georgetown D. C. today, resulted in the choice of the candidate of the negro suffrage party for mayor.

XXXIXTH CONGRESS—Second Session.

WASHINGTON, Feb. 25.

In the Senate, the credentials of Justin S. Morrill, senator elect from Vermont, were presented. The following are among the measures passed:—a bill relating to the government of Montana, and removing all distinction based on color in the qualification for voters; the joint resolution extending for two years the use of unserviceable vessels by the quarantine authorities of New York; the river and harbor improvement bill; a bill relating to goods brought from the British Provinces to be carried into the interior without inspection; the bill to regulate the disposition of fines under the custom laws. The reports of the conferences on the Military Academy and the diplomatic appropriation bills were concurred in. A bill to consolidate the national debt was introduced by Mr. Sherman. The report of Saturday's proceedings omitted to state that the finance committee recommended non-concurrence in the House compound interest bill and reported the Senate bill as a substitute.

In the House the report of the committee on the internal revenue tranda was presented and ordered to be printed. A resolution was passed declaring that the surviving soldiers and sailors of the war of 1812 should be placed on the pension rolls of the present Congress.

Motion to discharge the committee of the whole from the consideration of the tariff bill and to concur in the Senate amendments were lost. The results of the conferences on the diplomatic and Military Academy appropriation bills were concurred in. The tax bill was passed with cotton tax restored.

END OF THE CUBAN SLAVE TRADE.

WASHINGTON, Feb 26. The Government is satisfied from Commander Cooper's cruise around the Island of Cuba and the result of his inquiries that no landing of negroes has taken place or an expedition been fitted out for upward of a year, the importation of Coolies having in a great measure done away with the slave trade.

THE RECONSTRUCTION BILL.

Rumors respecting the reconstruction bill are numerous. The democratic members urge the President to pocket it, but it is generally thought he will not. He has grown ugly upon the subject within the last twenty-four hours, and it is impossible to predict his course, except that he will not sign it. Somebody has stated that Gen. Grant is against the bill, but it is false, unless he has been talking both ways on the subject, which is improbable. Congress will sit over Sunday if it is necessary to pass the bill. The democrats still say they will not filibuster against it.

Throat Affections

Are more frequently than otherwise caused by a thick, slimy mucus, falling from the head, especially during the night, and resulting from Catarrh, and are cured by

DR. SEELYE'S

Liquid Catarrh Remedy.

SYMPTOMS.

The symptoms of Catarrh are at first very slight. Persons find they have a cold, that they have frequent attacks and are more sensitive to the changes of temperature. In this condition the nose may be dry or a slight discharge, thin and acrid, afterward thick and adhesive, may ensue.

As the disease becomes chronic, the discharges are increased in quantity and changed in quality. they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice thick and nasal; the eyes are weak; the sense of smell is lessened or destroyed; deafness frequently takes place.

Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a slick or slimy mucous, which has fallen from the head during the night. When this takes place, the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.

The above are but few of the many Catarrhal symptoms. Write to our Laboratory for our pamphlet describing fully all symptoms; it will be sent FREE to any address. Also directions where to procure the medicine.

We are receiving letters from all parts of the Union, and also numerous testimonials from those using it, bearing the evidence of its unfailible merits.

☞ This remedy contains no MINERAL or POISONOUS INGREDIENTS, but is prepared from vegetable extracts EXCLUSIVELY; therefore it is PERFECTLY HARMLESS, even to the most tender and delicate child. ☜

CALL FOR SEELYE'S CATARRH REMEDY, and and take no other. If not sold by druggists in your vicinity, they will order it for you. Price $2,00 per bottle.

☞ All persons suffering with any affection of the Head, Throat or Lungs, should write at once for our pamphlet fully describing all symptoms pertaining to the above diseases.

It will be sent free to any address.

GOODS LOANED

On Weekly or Monthly Payments.

THE system of furnishing Goods at on Weekly or Monthly Payments is peculiar to my establishment. It is invaluable to persons of limited means, who wish to commence housekeeping or replenish their dwellings, but who have to earn their money to do it, and still support their families. The system has worked so safely that it is in constant practice at my Emporium on Broad street.

The System Contemplates Two Things.

FIRST—The accommodation of persons having a stated limited income, and also those who desire to use their money and pay instalments from its earnings. They can have the use of new property paid by weekly or monthly payments they make it their own.

SECOND—The perfect security of myself against losses. The goods are loaned by me and located, and hence cannot be moved without my consent.—The fee of the goods being in myself, I can call for them at any moment. This ensures promptness of payment according to the terms of agreement for their use until paid for, when they become the property of the user, by a regular bill of sale. The contract is drawn legally, and its violation by the removal of the goods or their attempted sale, would subject the person doing it to heavy penalties.

These two features secure to me safety, and to my customers cheapness of price. They do not have to pay for losses incurred through others. Besides the system secures a good class of customers, as it is confined to benefit the worthy whose means are limited, and not injure myself, or interfere with established factors.

SWINBURNE'S WHARF, foot of Mary St., Newport, R. I.

HAVING leased the wharf of Hon. Wm. J. Swinburne and purchased the good will and appointments necessary to carry on the

Coal and Wood Business,

I would respectfully solicit the patronage of my friends and the public generally. My business will be attended to carefully and promptly and I feel certain that those who favor me with their custom will be satisfied with the same.

A good stock of both Coal and Wood is now on hand, which will be sold at the lowest market rates and delivered in any part of the city.

Medicines.

CONSTITUTION LIFE SYRUP!

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) diseases transmitted from PARENT to CHILD.

L

SCROFULA.

STRUMA, GLANDULAR SWELLINGS,
ULCERATION. KING'S EVIL,
ERYSIPELAS, SALT RHEUM.

This taint (hereditary and acquired, filling life with untold misery, is by all usual medical remedies incurable.

RHEUMATISM.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of twenty or thirty years standing have been cured.

I

NERVOUSNESS.

NERVOUS DEBILITY, SHATTERED NERVES,
ST. VITUS' DANCE, LOSS OF POWER,
CONFUSION OF THOUGHTS, EPILEPSY.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than its promises.

MERCURIAL DISEASES.

SALIVATION, ROTTING OF BONES,
BAD COMPLEXION, ACHES IN BONES
FEELING OF WEARINESS. DEPRESSION OF SPIRITS,

F

CONSTITUTION LIFE SYRUP purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, curing the Weak Joints and Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

CONSTITUTION LIFE SYRUP

Eradicates, root and branch, all Eruptive Diseases of the Skin like

ULCERS, PIMPLES, BLOTCHES,

and all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

E

CONSTITUTION LIFE SYRUP

CURES ALL SWELLING OF THE GLANDS,

Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depend upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

S

All scrofulous persons suffering from general Debility, Emaciation, Dyspepsia and Dropsy of the limbs, abdomen and in the female, Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the Uterus, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort.

Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife, or operations of any kind.

Y

Epileptic Fits, Sympathetic or Organic Diseases of the Heart, as palpitation, Diseases of the Valves, producing a grating or filing sound, Dropsy of the Heart Case and all the affections of this important organ (persons suffering from any acute pain in the region of the heart), will be greatly relieved by Constitution Life Syrup.

Broken-down and delicate constitutions suffering from indisposition to exertion, Pain in the Back, Loss of Memory, Forebodings, Horror of Calamity, Fear of Disease, Dimness of Vision, Dry, Hot Skin and Extremities, Want of Sleep, Restlessness, Pale, Haggard Countenance and Lassitude of the Muscular System, all require the aid of the Constitution Life Syrup.

R

FOR ALL FORMS OF

ULCERATIVE DISEASES,

Either of the Nose, Throat, Tongue, Spine, Forehead, or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face depending upon the diseased action of the liver are very unpleasant to the young wife and mother. A few bottles of the CONSTITUTION LIFE SYRUP, will correct the secretion, and remove the deposits which is directly under the skin.

In the diseases of the Liver, giving rise to Languor, Dizziness, Indigestion, Weak Stomach or an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, will be relieved by the use of Constitution Life Syrup.

U

☞ As a general Blood Purifying Agent the Life Syrup stands unrivalled by any preparation in the World.

THE RICH AND POOR

are liable to the same disease. Nature and Science has made the Constitution Life Syrup for the benefit of all.

PURE BLOOD

produces healthy men and women; and if the constitution is neglected in youth, disease and early death is the result.

Price, $1 25 per bottle; one-half dozen for $7.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicine.

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'
PRIVATE MEDICAL OFFICE,
21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

IS THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN BOSTON,

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

STRANGERS AND TRAVELLERS.

To avoid and escape imposition of Foreign and Native Quacks, *more numerous* in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines *by the dead*, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a *Medical or Surgical* adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

DR. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also, all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State Street, opposite Kilby, st., BOSTON.

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain France and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners, with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent office.

EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges.

EMAIL DE PARIS, at
R. J. TAYLOR'S

Peerless Cooking Stove.

Here is the opinion of the editor of the Boston *Journal*—We have been very much pleased in examining a stove of this pattern, manufactured by Messrs. Pratt & Wentworth of Roxbury for the Paris Exposition, at the store of W. F. Shaw & Co., 169 Washington Street. It is one of the most beautifully finished articles of kitchen furniture we have ever seen, the mouldings being steel finished, the knobs and handles silver plated, the tank and hot closet are made of German silver, all the hollow ware used on the stove is finely enamelled, and the tea-kettle is of burnished copper.

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top, and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove."
